Education

Work experience

$Jan\ 2020-now$	Oliasoft, Lysaker, Mathematician
	Working on numerical optimization, computational geometry, and coordinate
	reference systems.
Sep 2019 - Mar 2020	University Center for Information Technology, Oslo, Junior Engineer
	App development with React Native.
Jul 2019 – Aug 2019	Simula Research Laboratory, Fornebu, Summer internship
	Machine learning using convolutional neural network with temporal aggrega-
	tion for regression on video data.
	Volunteering as research assistant (Jan 2019 – Oct 2019).

Extracurricular

Jan 2020 – now | Realistforeningen, Bar shift leader Recruiting and training volunteers for working shifts in the student pub.

Publications

"Using 2D and 3D Convolutional Neural Networks to Predict Semen Quality" J. Rosenblad, S. Hicks, H. K. Stensland, T. B. Haugen, P. Halvorsen, M. Riegler CEUR Workshop Proceedings - Multimedia Benchmark Workshop (MediaEval), Sophia Antipolis, France, October 2019

Achievements

International Olympiad in Informatics, bronze medal Baltic Olympiad in Informatics, participation Norwegian Informatics Olympiad, 3rd place Abel competition, 6th place Norwegian Physics Olympiad, finalist Norwegian Chemistry Olympiad, final qualifier International Olympiad in informatics, participation Baltic Olympiad in Informatics, participation Norwegian Informatics Olympiad, 3rd place
